

COSMETIC TEETH WHITENING

The future of teeth whitening is here.

Do you know what the annual total spend on teeth whitening is in the USA?

Every year US\$11 billion is spent on teeth whitening and this total has been growing exponentially over the past 20 years. Teeth whitening is becoming increasingly popular in Australia, following the global trend to achieve a dazzling smile.

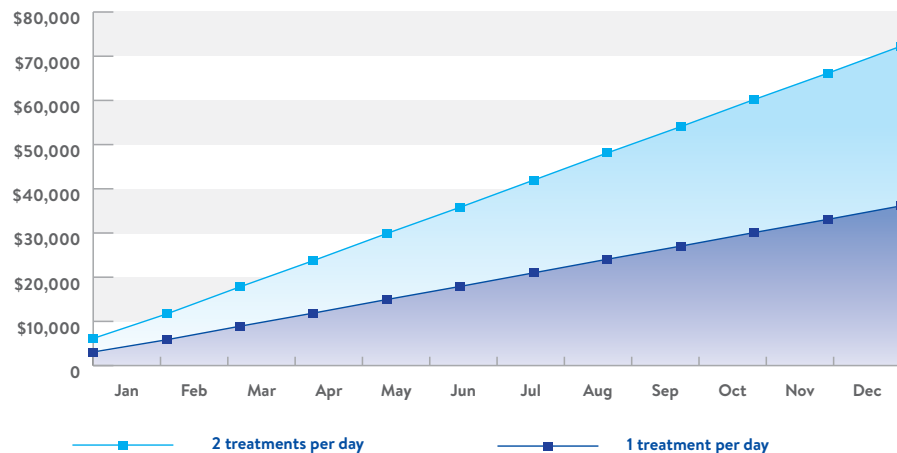

In the past, only dentists were able to

produce this result, but due to technological advances this is now achievable cosmetically in your salon!

Teeth whitening is a bright idea for your salon.

By introducing PureSmile to your salon you could turn just one square metre into a very profitable part of your business.

Cumulative Annual Revenue

The graph shows the estimated annual cumulative gross revenue based on \$99 RRP for the PureSmile peroxide-free 1 hour treatment. With a single sale per day your initial investment in the PureSmile Platinum Package would be recovered in just over one month.

The PureSmile method

PureSmile was established after years of extensive research with acknowledged industry professionals, developing an affordable, safe and painless teeth whitening solution.

We combine proven natural teeth whitening products with the most powerful LED teeth whitening light ever designed, which ensures fast results whilst still being completely safe and comfortable for the customer.

Our extremely popular methods cater both for clients with sensitive teeth, through our Peroxide-free formula, and also for clients who demand dramatic and fast results, achieved using our faster acting 6% Hydrogen Peroxide gel.

All our products are manufactured in the United States and are FDA registered, natural, vegan, certified Kosher, not tested on animals, dentist approved and customer recommended.

Join the PureSmile teeth whitening movement today.
